# About this report

PRI reporting is the largest global reporting project on responsible investment. It was developed with investors, for investors.

PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders.

This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2023 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

## Disclaimers

### Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

### Data accuracy

This document presents information reported directly by signatories in the 2023 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

## SENIOR LEADERSHIP STATEMENT

### SENIOR LEADERSHIP STATEMENT

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
SLS 1	CORE	N/A	N/A	PUBLIC	Senior Leadership Statement	GENERAL

#### Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

Responsible investment has always been important to the pension scheme MetallRente since we were founded by Management and Labour, Gesamtmetall and IG Metall, 20 years ago in 2001. Our engagement continues to follow a holistic approach with regards to ecological, social and governance sustainability and development. Having started with a simple negative list approach, we have quickly moved to a combination of ESG criteria implementation as well as a best-in-class investment approach and continued negative list application to reach an 'ESG-integrated' state especially for the exclusive MetallRente.Fondsportfolio. As first-movers our approach still sets standards especially in the occupational pensions sector.

#### Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
  - refinement of ESG analysis and incorporation
  - stewardship activities with investees and/or with policymakers
  - collaborative engagements
  - attainment of responsible investment certifications and/or awards

In 2022 we have achieved further progress mainly regarding ESG information transparency for our beneficiaries. We have further updated ESG reports as well as the information provided to beneficiaries, to potential customers and the public. In-line with EU legislation, we have also prepared more advanced consumer information on our responsibility engagement to match consumer needs and preferences accordingly. The MetallRente.Fondsportfolio has met the requirements of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR) since 2021.

#### Section 3. Next steps

- What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

We have met the requirements of Article 8 SFDR for the MetallRente funds portfolio and other pension schemes we provide like the MetallRente pension fund.
